EXPERIENCE

Resultados Digitais, Florianópolis-BR — *Senior Software Engineer*

2018 feb. - UNTIL TODAY

Leading SMB inbound marketing platform in South America. I have been working with front-end development using React to build top-notch user experiences for the RD flagship product: RDStation. *Technologies: JS (React), HTML5 and Ruby on Rails.*

Toplayalong.com, Santos-BR — *Founder and Software Engineer*

2015 - UNTIL TODAY

Interactive website used by musicians all over the world. A Javascript application helps the musician to follow the sheet music while the backtrack is played. *Technologies: JS, HTML5 and PHP.*

Brosz, São Paulo-BR — *Software Engineer*

2009 - 2013

One of the biggest games e-commerce in South America in its time with offices in Brazil and the United States. I worked developing the e-commerce solution and tools that have ensured our competitive advantage in the market. *Technologies: JS and PHP.*

FORMAL EDUCATION

University of London - Goldsmith, London-UK — *Computer Science*

2019 - 2022 (currently studying)

University of São Paulo - Escola Politécnica, São Paulo-BR — *Engineering*

2003 - 2006 (Incomplete)
